# SEA School

Our registered teacher provides interactive learning experiences for New Entrants to Year 13. These lessons are designed to explore the amazing animals on display and integrate with students' classroom learning. Science, Biology, Social Studies, Maths and The Arts come alive with our SEA School Learning Experiences Outside The Classroom (LEOTC) programmes supported by the Ministry of Education.

We provide a wonderful educational environment offering many fantastic experiences that cannot be replicated in the classroom including:

- *Spikes & Spines* - handle jaws, teeth, shells...
- *Four Daily Feeds* - eels, sharks, octopus...
- *CITES Collection* - turtles, whales, corals...
- *Movie Theatre* - short films on whales, kiwi...
- *Touch Tank* - hold crabs, kina, starfish...
- *New Displays* - katipo, geckos, even tuatara!

# SEA Lab

**NEW!**

The latest development in our LEOTC programme, SEA Lab is a new, dedicated education facility located beneath the Aquarium for students from Year 7 to Year 13. Our teacher provides lessons and practical sessions that integrate with Science, Biology or Technology curricula and expand on students' classroom learning. Time is split between Aquarium study and Laboratory activities.

Microscopes, computer sensors, data-loggers, life-support systems and other specialised equipment allow a wide range of study activities:

- *Dissections* - sharks, bony fish, molluscs...
- *Investigations* - behaviour, water quality...
- *Experiments* - habitat choice, biorhythms...
- *Observation* - locomotion, biodiversity...
- *Examination* - adaptation, form and function...
- *Appreciation* - so many amazing animals!
