Zoo School

Our registered teacher will design a programme to meet your specific learning objectives, which will provide interactive learning experiences with the animals at Orana Wildlife Park. Zoo School is a Learning Experiences Outside The Classroom (LEOTC) education programme supported by the Ministry of Education and caters for school students from New Entrants to Year 13.

Popular Zoo School programmes requested by classroom teachers include:

- *Adaptations*
- *Animal Enclosures*
- *Endangered Animals*
- *Classification*
- *Caring for Creatures*
- *Food Chains and Food Webs*
- *Body Parts and Coverings*
- *Primates and Human Evolution...*

With a focus on New Zealand natives and African species, Orana is home to approximately 400 animals from 70 different species. This is a wonderful learning environment providing experiences that cannot be replicated in the classroom; the walk-through aviary takes you into the home of rare native species, while the open range enclosures bring Africa to you.

Learning takes place in full view of the wildlife and includes special activities such as:

- *Giraffe Encounter* - hand feed, touch and observe our majestic Giraffe
- *Llama Encounter* - brush and feed our very friendly Llama
- *Reptile Encounter* - handle and examine native and exotic species
- *Rhinoceros Encounter* - come "face to face" with our mighty White Rhinoceros!
